Experience

1. Online Examination System

Project Description: It is used for in college for taking quiz type exam which save load of paper and after the exam it gives result which reduce the burden of faculty to check the all quiz one by one. In our ABES Engineering College after every Sessional exam and In internal & External practical exam 3-4 times quiz taken by our Faculty which use More A4 paper and faculty also have Burden to check all quiz. So we think to make Eco Friendly Web application Project on java Platform and think donate it for our college.
